

**Question sheet**

Use 7.4T2c Biscuit model.xls to answer these questions.

1 How much would 500 biscuits cost?

2 What would the butter for 750 biscuits cost?

3 You have £10. How many biscuits can you make?

4 What type of information is in each of these cells?

Put a tick under 'data', 'formula' or 'label' for each cell address.

Cell address	Formula	Data	Label
B3			
D4			
F3			
E10			
G2			
A2			

5 What cells are added together in G10?

6 Write down a formula that you could write in G10.

7 Imagine that you want to find out the total cost of producing the biscuits. What information do you think is missing from the model?
